TECH STACK

- **Languages:** PHP, JavaScript, Java
- **Frontend:** HTML, CSS, React.js
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, PostgreSQL
- **Tools:** Git, GitHub, VS Code

SOFT SKILLS

- Problem-solving
- Teamwork
- Time management

LANGUAGES

- English (Fluent)
- Albanian (Native)

CERTIFICATIONS

- Back-End developer - Shkolla Digjitale 2022-2024
- Front-End developer - Shkolla Digjitale 2022-2024

PROFILE

Motivated Computer Science and Engineering student with a strong interest in full-stack development. Skilled in writing clean, efficient code and building practical solutions. Seeking an opportunity to contribute, apply knowledge, and gain hands-on experience through internships or academic projects.

EXPERIENCE

Sports Tournament Management System 2026
| React, Node.js, Express, PostgreSQL, Prisma, Socket.IO |

- Built a full-stack platform for managing sports tournaments, teams, players, venues, and matches
- Implemented role-based access for Admin, Organizer, Referee, and public users
- Added real-time live match updates with Socket.IO and automated match status updates with cron jobs
- Developed standings, match results, knockout brackets, JWT authentication, and password reset

School Management System 2025
| PHP, MySQL, HTML, CSS, JavaScript |

- Built a full-stack school portal with Admin and Student roles
- Implemented authentication, sessions, role-based access, and protected pages
- Created CRUD admin features for users, lessons, assignments, grades, attendance, and messages
- Designed a relational MySQL database for school data, submissions, schedules, and student records

Barista & Waiter (Part-time) 2024 - Present
Local Café — Ferizaj

- Provided friendly customer service in a casual café setting
- Handled orders, payments, and food/drink service
- Maintained cleanliness and organization

EDUCATION

2024-2027

Bachelor of Computer Science and Engineering

University for Business and Technology (UBT), Kosovo

Expected Graduation: 2027

IT Training & Online Courses

Shkolla Digitale — 2022-2024

Completed courses in full-stack development (Udemy)

Continuously learning AI Engineering Courses through Udemy courses

Improving version control usage, code quality, and problem-solving habits
